MEASURES OF ACADEMIC PROGRESS

We use two measures to track our school's academic achievement over time: the Academic Performance Index (API) and Adequate Yearly Progress (AYP). These measures combine test results differently and often provide differing views of student progress.

ACADEMIC PERFORMANCE INDEX (API): This is California's way of rating schools. Using student test scores, the API places schools on a scale from 200 to 1000. Our school's API was 622, compared with 743 for the average middle school. The state expects schools to attain an API of 800 eventually.

ADEQUATE YEARLY PROGRESS (AYP): This is a federal measure that requires schools to meet test score goals schoolwide and for all subgroups* of students. We met nine out of 17 criteria for yearly progress. Because we fell short in eight areas, we did not make AYP. Note that the number of criteria may vary from school to school.

CALIFORNIA API ACADEMIC PERFORMANCE INDEX		FEDERAL AYP ADEQUATE YEARLY PROGRESS	
Met schoolwide growth target	No	Met AYP	No
Met growth target for prior school year	No	Met schoolwide test participation rate	Yes
API score	622	Met schoolwide test score goals	No
Growth attained from prior year	-36	Met subgroup* test participation rate	Yes
Met subgroup* growth targets	No	Met subgroup* test score goals	No
		Met API for AYP	Yes
		Program Improvement school	Yes

*—Numerically significant groups, such as English learners and ethnic groups, with separate API and AYP goals.
N/A—Data unavailable or unreported; statistically insignificant number of valid test scores; testing data under review; or school uses alternative accountability measures.
